SUMMARY

A fresh graduate in Computer Science with over two years of experience in web programming. Skilled in modern web technologies, including React.js, Vue.js, Next.js, Express.js, Laravel. Highly interested in web development, always eager to learn and improve. Known for creativity, problem-solving skills, and the ability to work effectively both independently and in collaborative team environments. Actively seeking opportunities to apply and expand technical knowledge in real-world software development projects.

EXPERIENCE

Frontend Engineer
09/2025 - Present

PT Trimegah Karya Pratama, Tbk ↗

- Developed and implemented responsive web interfaces using React.js, Vue.js, and Next.js.
- Integrated REST APIs to display dynamic data and improve user experience.
- Collaborated with the team using Jira (task management), Confluence (documentation), and Bitbucket (version control).
- Ensured UI consistency and responsiveness across devices based on provided design specifications.

JavaScript & Node.js Instructor
11/2024 - 01/2025

Developer Community ITI ↗

- Taught JavaScript fundamentals, including conditions, operators, and functions.
- Introduced Node.js concepts such as installation, npm, modules, file handling, and JSON.
- Led hands-on coding sessions and facilitated discussions to enhance participant learning.
- Assisted participants with debugging and troubleshooting coding challenges.

Programmer
02/2024 - 06/2024

Yayasan Kazeto Putra Perkasa

- Continued development of the PPDB (Penerimaan Peserta Didik Baru) web frontend using React and Tailwind, integrating data from an API to present student admission information.
- Built the frontend for the school profile website at https://sekolahkakseto.sch.id using React and Tailwind, enhancing both the visual design and functionality of the site.
- Developed the frontend for a farewell invitation website using React and Tailwind, delivering a responsive and interactive user experience.

Web Development Mentee
08/2023 - 12/2023

Infinite Learning ↗

- Spearheaded the frontend development of a dynamic web application utilizing React.js and Bootstrap, delivering a responsive and engaging user interface.
- Engineered a robust backend system with Node.js, Express, and MySQL, ensuring efficient data handling and seamless integration, tested via Postman.
- Acquired comprehensive experience in full-stack web development, demonstrating adaptability and technical proficiency across both frontend and backend technologies.

EDUCATION

Computer Science   09/2021 - 08/2025
Indonesian Institute of Technology - Bachelor's degree
- Relevant subjects: Basic Programming, Object-Oriented Programming, Web Programming, Database.
- Engage in college projects involving web application development, both individually and in teams.
- Develop skills in troubleshooting, debugging and testing in the context of web development.

Frontend Web Developer Scholarship   09/2023 - 12/2023
- Conducted intensive training in frontend web development.
- Attained a profound understanding of fundamental JavaScript programming and basic web programming concepts.
- Hands-on practice in creating responsive user interfaces.
- Executed a web application development project using React to enhance skills.

CERTIFICATES

Junior Web Developer ↗   10/2024 - 10/2027
Badan Nasional Sertifikasi Profesi (BNSP)

Belajar Membuat Aplikasi Web dengan React ↗   11/2023 - 11/2026
Dicoding

Belajar Dasar Pemrograman Web ↗   10/2023 - 10/2026
Dicoding

SKILLS

Communication	Vue.js
Teamwork	Next.js
Attention to Detail	Express.js
Self-Directed Learning	Node.js
Analytical Thinking	Laravel
Problem Solving	Tailwind CSS
Github	Bootstrap
React.js	Mysql

LANGUAGES

English	Intermediate	Indonesian	Native
